

# User Experience And Front End development, Back End Development for Custom Applications in Distinct Domains

## Client overview

- Synaptitude is an Enterprise and Technology systems consulting services company.
- It focuses on the intersection of business and technology, to team across the organization and deliver tangible benefits
- Their expertise on business and financial improvement enables them to attack difficult problems and deliver transformational solutions.
- **Trusted advisor** and partner to some of the most recognized names in global business.

## Objective

- Clear vision, objectives, leadership, scope, stakeholders, roles, responsibilities, commitment, and program control
- Business improvement aligned to strategic vision; technology improvement aligned to business process; objectives and processes harmonized across the organization
- Project issues accurately managed, reported, and fixed, and verified
- All risks are assessed and mitigated, and any quality issues are clearly identified, tracked, fixed, and verified

## Solution

- WEB+SOFTWARE DEVELOPMENT that takes pre-built application modules that can be quickly modified, enhanced, and re-purposed
- Chief Information Officer and Enterprise Professional Consulting Services
- Data analytics solutions that enable executive managerial insight into their organization
- Design and Productions process adding Scrum and Agile.
- Technologies & Framework Used: HTML, CSS3, JS, JQuery, Bootstrap, J2EE, Spring, Hibernate, Postgresql, AWS, Tomcat

## Benefits

- Our partnership helped Synaptitude to focus more on business process definition and quick implementation/modification of existing solutions
- Full Stack Developers in half the cost
- Fast paced development with daily & weekly commitment using agile and continuous delivery philosophy (Jira, Bamboo)
- Intuitive design attracted more customers
